

EQUIPP[®] Cheat Sheet

1. Begin with PDC/Adherence Measures
Patients may fall into multiple measures.

2. Select "Analyze Performance"
Drill down for each measure

3. Know your Performance Goals!
(Review the QIP Table)

4. Review and Sort Outliers
Start with patients who have a higher PDC rate

5. Stretch Goal!
Change the goal to top **20%**

Ask Yourself!

Are the PDC Outliers enrolled in your adherence program?

Outlier Types

Outlier- Patient who negatively impacts the performance score (PDC < 80%)

Late Refill- Patient who may not yet be an outlier - represents an opportunity to address non-adherence before PDC is < 80%

Outlier Designations

When in the EQUIPP[®] platform, hover over designations "?" for full Definitions.

 90 Day Fills (for PDC measures only): identifies patients for 90 day fills

 LIS (Low Income Subsidy) Identifies patients who may be eligible for reduced copays

 Actionable Impact: patient with potential to achieve $\geq 80\%$ PDC within the calendar year

 No Impact: patient without potential to achieve > 80% PDC within the calendar year

 Flu Shot Needed: patient has not received their annual influenza vaccination

 Flu Shot Received: patient has already received their annual influenza vaccination

 Statin Intensity: patients need to receive a moderate or high intensity statin/statin-combination product (low intensity statins do not qualify)

Elements for Success!

Measurement Data- Monthly data updates provide the pharmacy with information on how their practices are impacting the quality of medication use.

Outlier Data- Patient information for Outliers (patients that are negatively impacting the performance score) are displayed.

Peer Comparisons- See where you stand on measures compared to peers in your pharmacy organization and across the top 20% of pharmacies across the country.

Improvement Strategies- Physician, patient and staff engagement resources and information are available for you via EQUIPP[®] to support the development of effective performance improvement strategies.

Performance Trending- EQUIPP[®] provides visibility to six month and Year-To-Date data that shows how your pharmacy's performance is changing over time as a result of improving activities.
