

DATA DATE RANGES

EQUIPP® users can filter data date ranges for various reasons based on their goals, patient population, and medication-related quality measure performance they are looking to improve. Within EQUIPP®, end-users can review their performance on a rolling 6-Month measurement period or Year to Date. Below, we will provide you with key details and actionable tips when using both data date ranges for your pharmacy's priorities.

6-Month View

A rolling evaluation of performance with the latest six months of data.

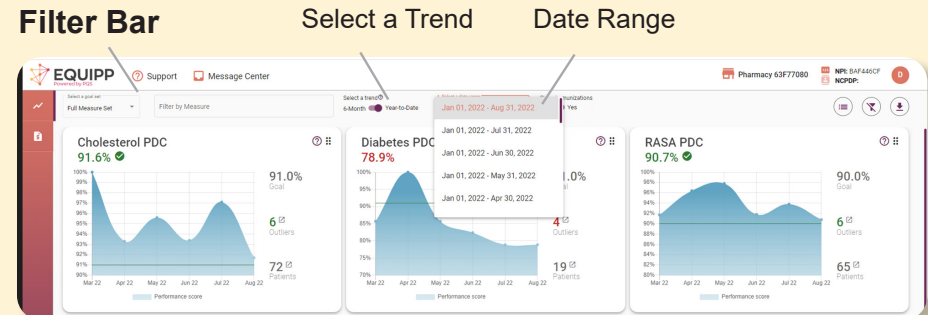

6-Month Data Date Range: Things to Know

- Provides performance information on quality measures continuously
- Some quality improvement programs may expect performance goals for specific time periods within identified 6-Month date ranges
 - o NOTE: Pharmacies should review their health plan contracts for guidance on performance expectations
- Assists with identifying patient engagement opportunities on quality measures

YOUR ACTION - Review your pharmacy contracts for performance expectations, establish a quality champion, and understand if your goals align with the data date ranges on a rolling 6-Month basis

Year to Date View

An evaluation period starting Jan. 1 and ending with the most recent month of data, until full calendar year is evaluated Dec. 31.

Year-to-Date Data Date Range: Things to Know

- Includes performance data on quality measures with pharmacy claims beginning Jan. 1 of the current or prior calendar year
- EQUIPP® begins hosting Year-to-Date data in the May Refresh once there are 91 days of performance data available, with a reporting period of January - March.
- Health plans have goals for quality measures within the applicable year
- Pharmacies should see patients with an eligible fill and meet the intent of the quality measure from Jan. 1 to the current EQUIPP® refresh date

YOUR ACTION - Establish a plan focusing on your annual performance and patient engagement as all patients who have filled through the selected time period will be attributed to your pharmacy's data.

P.A.C.E. YOURSELF IMPROVEMENT PROCESS

PLAN-

1. Coordinate with your team on what success means for the pharmacy
2. Identify the goal for the week or the month
3. Communicate how utilizing EQUIPP® will assist your staff in execution

ENGAGE-

1. Connect with your patients related to their outlier status or progress in applicable outcomes measures
2. Discuss how well your team has executed improvement on performance measures
3. Continue to implement the P.A.C.E. process with your staff!

ACT-

1. Log-in to EQUIPP® and review performance metrics
2. Utilize the Analyze Performance page to understand payer programs in the QIP table
3. Prioritize outliers based on the goals your team has set for the pharmacy

CHECK-

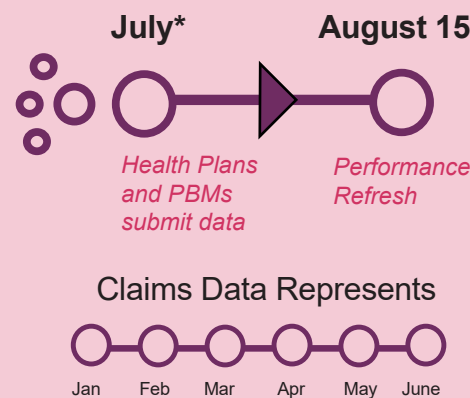

1. Explore your progress in applicable payer programs within 'My Programs' of EQUIPP®
2. Make the necessary adjustments to your plan based on performance
3. Look back on previous measurement periods to track progress and improvement

EQUIPP® DATA & SCORE REFRESH

On a monthly basis, several health plans and PBMs provide prescription, medical claims and member eligibility details to PQS. Measure calculations are completed, and performance scores are displayed in EQUIPP®.

Performance information is updated the following month after the claims data is received. Typically, performance scores are updated towards the middle of each month.

*Example Refresh Timeline

A performance refresh for August reflects data submitted by health plans and PBMs in July. This data represents a measurement period of January through June. PQS validates the data submissions and calculates performance scores which are updated for display in August.
