

# ALL PATIENTS VIEW

The All Patients View is a comprehensive view of **all patients** attributed to your pharmacy in the EQUIPP® platform.

Last Name ▾ First Name Date of Birth Payer Program # of Measures # of Measures at Goal % of Measures at Goal

## Prioritize and Optimize Patient List

- Sort your patients by:
  - o name
  - o date of birth
  - o payer program
  - o number of measures
  - o number of measures at goal
  - o percentage of completed measures
- Search for patients by first or last name
- Download patient list report across all measures

## Take Action at the Patient Level

- Identify patients before they negatively impact performance
- View and prioritize your patient opportunities
- Filter patient lists based on your preferences

Last Name ▾	First Name	Date of Birth	Payer Program	# of Measures	# of Measures at Goal	% of Measures at Goal
BLACKBURN	MELODY	09/03/1953	TEST HP 3 MEDICARE	2	1	50%
HOWARD	JOYNA	10/22/1940	TEST HP 2 MEDICARE	1	1	100%
O'DOR	RANDALL	07/08/1908	TEST HP 2 MEDICARE	1	1	100%

## Patient Record View

- See patients with multiple measures in one view
- Enhanced patient documentation tool to support patient care
- Prepare notes for future patient interactions

MELODY BLACKBURN	
DOB: Sep 3, 1953	
Health Plan: Test HP 3 Medicare	
Measure Name	Measure Status
Antihypertensive POC	Followed
Diabetes POC	Outlier

# ALL PATIENTS VIEW

The All Patients View in the EQUIPP® platform provides a quick look at the full measure set of all your pharmacy's patients.

Please navigate to the All Patients View using the navigation bar on the left.

**Quick Access Tab to All Patients View screen.**

The All Patients View screen displays a table of patient information:

Last Name	First Name	Date of Birth	Payer Program	# of Measures	# of Measures at Goal	% of Measures at Goal
BLACKBURN	MELODY	09/03/1953	TEST HP 3 MEDICARE	2	1	50%
HOWARD	JOVINA	10/22/1940	TEST HP 2 MEDICARE	1	1	100%
O'DOR	RANDALL	07/08/1908	TEST HP 2 MEDICARE	1	1	100%

**This page displays all patients with performance data, highlighting:**

- the number of measures a patient may be attributed to
- the number of quality measures currently achieving the performance goal
- the percentage of measures a patient has achieved performance goal(s)

**How is the All Patients View different from the Patients page accessed in a measure tile?**

The patients page displays patient information specific to the selected quality measure.

The All Patients View will show each patient, no matter the quality measure, with data in your pharmacy's EQUIPP display.
