Pathway to Success

Reviewing How to Access Enhanced Services and Take Action in EQUIPP

Goals to Achieve:

- Filling a 90-day supply of the targeted medication for your patient will get them adherent by Year-End!
- Each successful intervention will earn your pharmacy \$75!!
- Engage with your patients weekly to improve their health outcomes!

STEP 1

Log-in to the platform and navigate to the Enhanced Services page on the left by selecting the BULLSEYE.

Enhanced Services

STEP 2

Click on the Adherence Monitoring Program and sort your eligible patients by end date to review those expiring first.

Name ▾

Year-End Adherence Monitoring Bonus Program

End Date
10/21/2023
10/30/2023
11/02/2023

STEP 4

Conduct a patient intervention for the refill and complete documentation within Enhanced Services in EQUIPP.

STEP 3

Using the patient's name, DOB, and measure they are attributed to from EQUIPP, locate their last fill in your internal system

STEP 5

Review the last day supply that was filled for the targeted medication and refill the medication for the same or greater days supply.

SUCCESS!

If both the intervention and medication refill are completed, and prescription is picked up before returning to stock by the targeted end date found in EQUIPP, you have achieved success!
